

NEXT GENERATION INTERNET

INTERNET OF HUMANS

Ready to get funded up to €150,000!*

Become an NGI Searcher

NGI Searchers will change the way we search and discover data and information on the internet.

Why is this important? Today, the vast majority of internet users search for web content using non transparent engines, which expose private data and digital behaviors to commercial misuse. It's time to design and adopt new technologies.

* Total funding: €6.8 million

NGI SEARCH

www.ngisearch.eu

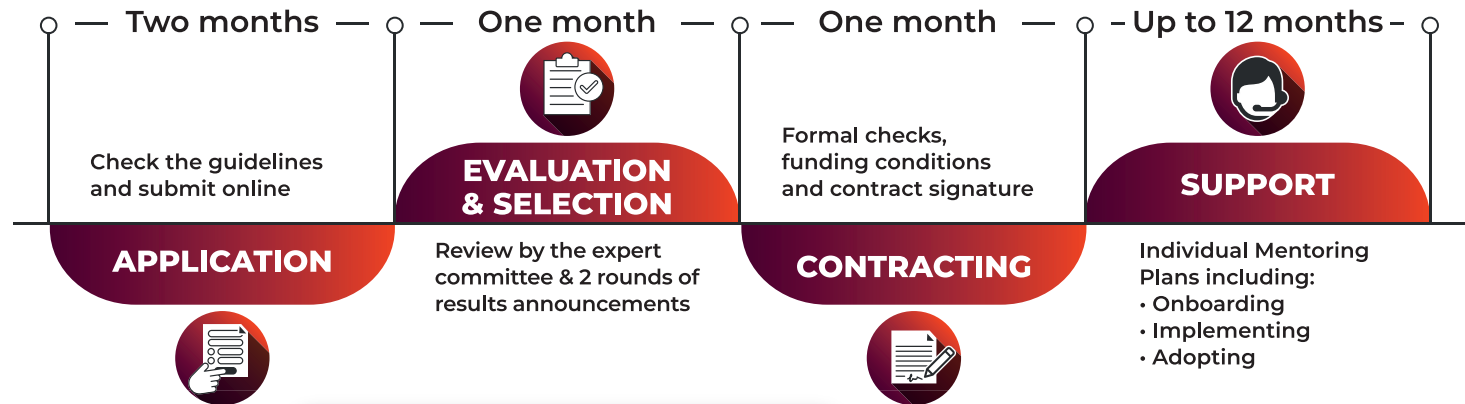

NGI Searchers are open source innovators

Tech Designers and Industry Users in the following fields:

- The next generation of intelligent voice-based assistants
